Located in a favorable part of the Lake Michigan Shore Viticultural Area, our vineyards are situated on one of the highest elevations in Berrien County. The elevation and the prevailing breezes from nearby Lake Michigan make it a relatively frost-free site for three seasons. This large body of water moderates our climate, which allows us to ripen many varieties of grapes. Our sandy gravel loam soils are among the best for horticulture, helping us to produce high quality red and white wines.

The 2014 vintage has earthy aromas of oak and leather, with a hint of lavender. Flavors of juicy blackberry, a slight smokiness and a hint of chocolate, lead to a smooth and sophisticated finish. With smooth tannins, this wine will only get better with age—lay it down in your cellar for 2 to 5 years.
